## **Statement Regarding the RoHS Compliance of ISSI Memory Products**

We are aware that the EU Directive entitled “Restriction on the use of certain Hazardous Substances (RoHS) 2002/95/EC” will become effective on 1<sup>st</sup> July 2006 and will restrict the use of six substances within electrical and electronic equipment from that date.

These substances are:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent chromium (Cr<sup>6+</sup>)
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)

No ISSI memory product contains any RoHS material except lead (Pb). ISSI Pb-free products are 100% compliant with RoHS.

Best regards,

Evangeline Bautista  
Sr. QA manager  
ISSI
